The Monthly Employment Report

Washington 4.0% United States 3.7%

Seasonally adjusted

December 2023

Employment Security Department
WASHINGTON STATE

For workers and businesses affected by COVID-19, Employment Security has updated information on the website at esd.wa.gov. For labor market information questions, please send your emails to data@esd.wa.gov.

Employment estimates in this report are generated by the U.S. Bureau of Labor Statistics (BLS). Monthly employment estimates are subject to revision in subsequent months when more sample data become available. BLS data in this report are rounded to the nearest 100.

On a seasonally adjusted basis, preliminary estimates from the federal Bureau of Labor Statistics (BLS) indicate nonfarm employment in Washington increased by 7,700 in December 2023.¹ BLS estimates the private sector added 6,600 jobs during the month and the public sector added 1,100 jobs.

On a not seasonally adjusted basis, estimates for December 2022 through December 2023 indicate an increase in employment of 54,200 for the state. The private sector added 34,800 jobs while the public sector gained an estimated 19,400 jobs over the year.

Washington's preliminary seasonally adjusted unemployment rate for December 2023 was 4.2%. The revised estimated unemployment rate for November 2023 was 4.0 percent. The December 2022 unemployment rate was 4.5%.

BLS estimates of monthly job gains and losses are based on a survey of businesses. Preliminary estimates are subject to revision. The November 2023 preliminary estimated loss of 2,600 jobs was revised upward to a gain of 7,700 jobs.

For more information, call Chief Labor Economist Anneliese Vance-Sherman at 564-900-0748

Resident civilian labor force and unemployment, seasonally adjusted

The resident civilian labor force is the total number of people in the workforce, employed and unemployed, ages 16 and up.

The number of unemployed is the estimated number of people who currently do not have a job, are available for work and have actively looked for work in the last four weeks.

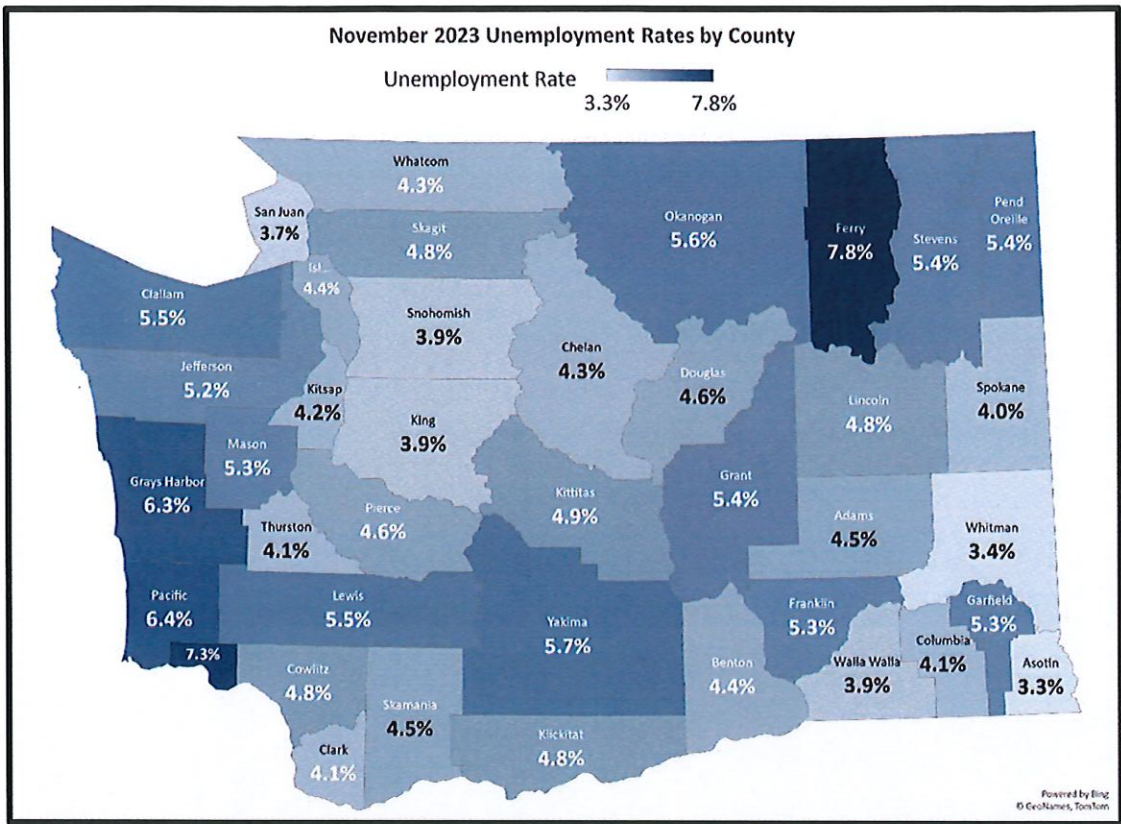

The unemployment rate is the ratio of the estimated number of unemployed divided by the civilian labor force.

Data Architecture, Transformation and Analytics Division
December 2023

¹Most of the employment numbers discussed in this report refer to jobs, not people. For example, if a person holds two positions, these positions are counted as two jobs in the employment series. In the section titled "Unemployment," these positions refer to individuals, not jobs. In this case, a person holding two jobs is counted only once.

Walla Walla County tied for 4th lowest unemployment rate out of 39 counties.
