* The release of some labor market and employment information is temporarily paused due to the federal government shutdown. The publishing of state and national economic data and reports will be delayed until the federal government reopens.

“Due to the shutdown, federal agencies such as the Bureau of Labor Statistics (BLS), the Census Bureau and Department of Labor are not reporting on labor market and employment information,” said Chief Labor Economist Anneliese Vance-Sherman. “We will be ready to update and post reports, such as the monthly employment report and county unemployment data, once the government reopens and the federal agencies resume reporting.”

The Monthly Employment Report

August 2025

Prepared by Anneliese Vance-Sherman, chief labor economist

On a seasonally adjusted basis, preliminary estimates from the Bureau of Labor Statistics (BLS) show nonfarm employment in Washington decreased by 13,600 in August 2025.^a Employment in the private sector decreased by 15,100 jobs over the month and employment in the public sector increased by 1,500.

On a not seasonally adjusted basis, estimates for August 2024 through August 2025 show a decrease of 5,400 jobs statewide. Employers in the private sector collectively added 1,400 jobs while the public sector shed an estimated 6,800 jobs over the year.

Washington's preliminary seasonally adjusted unemployment rate for August 2025 was 4.5%, unchanged from the estimated unemployment rate for July. For reference, the unemployment rate in August 2024 was 4.5%.

BLS estimates of monthly job gains and losses are based on a survey of businesses. Preliminary estimates are subject to revision.

For more information, contact Anneliese Vance-Sherman by phone at 564-900-0748 or by email at anneliese.vance-sherman@esd.wa.gov.

^a Most of the employment numbers in this report refer to jobs, not people. For example, if a person holds two positions, these positions are counted as two jobs in the employment series. In the unemployment section, these positions refer to individuals, not jobs. In this case, a person holding two jobs is counted only once.

Resident civilian labor force and unemployment, seasonally adjusted

The resident civilian labor force is the total number of people in the workforce, employed and unemployed, ages 16 and older.

The number of unemployed is the estimated number of people who currently do not have a job, are available for work and have actively looked for work in the last four weeks.

The unemployment rate is the ratio of the estimated number of unemployed divided by the civilian labor force.

Figure 1: Resident civilian labor force and unemployment, seasonally adjusted, United States and Washington state, July and August 2024 and July and August 2025

United States	August 2025 preliminary	July 2025 revised	August 2024 revised	July 2024 revised
Unemployment rate	4.3%	4.2%	4.2%	4.2%

Washington	August 2025 preliminary	July 2025 revised	August 2024 revised	July 2024 revised
Unemployment rate	4.5%	4.5%	4.5%	4.5%
Resident labor force	4,022,129	4,024,800	4,065,971	4,067,770
Unemployed	180,450	180,851	181,010	182,983

Seattle/Tacoma/Bellevue	August 2025 preliminary	July 2025 revised	August 2024 revised	July 2024 revised
Unemployment rate	4.3%	4.3%	4.1%	4.1%
