

**PORT OF WALLA WALLA**

**DODD ROAD AND WALLULA GAP BUSINESS PARKS WATER SYSTEM**

**Policy & Rate Schedules Governing: Connection Charges, Capital Facility Charges & Water Main Extensions**

---

**Connection Charge**

Connection charges represent the average cost for meter/vault installation assuming the service line (up to 50 feet) and main line tap are also Port-installed.

Meter Size (Inches)	Connection Charge
3/4	\$940
1	1,004
1 1/2	2,245
2	3,400
3	5,100
4	6,200
6	8,900
8	13,900

---

**Capital Facilities Charge**

Capital facilities charges (CFCs) recoup part of the value of the Port's capital investment (excluding grants) and are used for capital expansion and replacement. Capital recovery will also be augmented by monthly rates.

System Capacity (gpm)	1,200
System Cost to Port	\$1,718,613
Cost per gpm	\$1,432

Meter Size (Inches)	Allowable Capacity (gpm)	Capital Facilities Charges (CFCs)
3/4	30	\$ 8,593
1	50	\$ 14,322
1 1/2	100	\$ 28,644
2	160	\$ 45,830
3	320	\$ 91,659
4	500	\$ 143,218
6	1,000	\$ 286,436
8	1,600	\$ 458,297

---

**Water Main Extensions**

Water main extensions (minimum 8-inch diameter) will be paid for by the developer, either directly or through the Port. The Port has the option of requiring a main to be oversized. Oversizing will be paid for by the Port. The Port will entertain a latecomers fee arrangement for future connections to the main.
